COST CONTROLS

Stabilize Costs - Respond to spikes in hiring demands with on-demand recruiting resources that allow you to deploy short-term recruiting strategies in the most cost effective way

Measured Results - AgileOne's AllSourceRPO solutions demonstrate ongoing program achievements through the use of service level agreements (SLAs), creating a higher level of accountability for delivering measurable cost controls

Efficient Processes - Achieve soft cost savings by standardizing and streamlining processes, making talent and deliverables available on a just-in-time basis

IMPROVED PROCESSES

Recruiting Consistency - Streamline recruiting functions across multiple geographies and business units

Transactional Options - Quickly expand your bandwidth by adding individual recruiting components such as sourcing, screening, interviewing or on/off-boarding, as needed

Program Expertise - Experienced program management professionals are trained to support hiring strategies for campus, veterans, and other specialized talent outreach efforts

VISIBILITY

Comprehensive View - Improve quality with service level agreements (SLAs) and key performance indicators (KPIs) that include cost-of-hire, source yield effectiveness, diversity candidate submission, time-to-fill and more

Ensure Compliance - Tracking and reporting to make sure you are operating within government requirements

Tailored Options - Incorporate additional AgileOne technology and service modules to create a total workforce solution that can adapt to your changing needs.

Recruitment process outsourcing (RPO) is a strategic component of a total talent acquisition strategy. Whether the goal is to deploy expertise that doesn't exist today, or to achieve greater scalability for cyclical hiring, an RPO solution provides the consistency in delivery needed in today's complex, global environment. Engaging an RPO solution no longer means giving up control of your processes; it means having a trusted advisor to help talent acquisition leaders reach their business goals.
